PRODUCE ADVANCES IN LOCAL MARKET

Higher Figures.

Hudson is Feature.

(By the International News Service.)
New York, Aug. 18.—Todays short session of the stock market was very dull. The attendance on the floor was light. Trading was narrow and the course of prices showed little change. The industrial and railroad lists alike my led on both sides of the closing level of yesterday within small fractional limits. Such transactions as there were clearly manifested professional inspiration.

The only outstanding feature was recovery of nearly three points in Delaware and Hudson after it had touched a new low level at 1023-4. Reassuring statements regarding the dividend outlook caused a let-up in the active liquidation of that issue in the past few days.

Little discussion was afforded by news developments. Financial circles of course showed some interest in the secretary of the treasury's propagals for a \$7.50,009.000 bond issue bearing 4 per cent and carrying income supertax, war and excess profits leyies.

In the late trading there was no change of importance, except for a reliance of importance, except for a reliance of importance, except for a reliance of the local produce market taken late yesterday, shows that eggs, butter and potatoes duce market taken late yesterday, shows that eggs, butter and potatoes are quoted at "up" at \$4.00 at \$100 at \$

COTTON MARKETS.

New York, Aug. 18.—While selling of cotton was not particularly aggressive today, there was not a great deal of support saide from covering for the week-sud and the market was easier. Business was not active.

During the late morning the garket exhibited continued heaviness of tone and prices under Wall Street, local and Southern selling, and worked down to a net loss of about 25 points. Occasional railes occurred on New Orleans and trade buying but early in the second hour the market was barely steady and within a point or two of the cariier low level.

Local covering produced a partial rally late in the session. The close was steady at a uet decline of 4 to 31 points.

Port receipts for the day were estimated at 6,000 bales, against 7,776 last year. The Chronicle estimates the world's visible supply of cotton at 2,384,685 bales, compared with 2,386,703 bales a year ago. The total American aupply is 1,205,660 bales, compared with 1,256,703 bales last year.

Spot here was quiet and 50 points lower at

Spot here was quiet and 30 points lower at 25.65 for midupland. Spot at New Orleans was quiet and unchanged at 28.25 for midupland. Sales 366 bales.

Purnished by N. L. Carpenter & Co. New York.

Another Reading Course For U. S. Citizen Soldiers

(Issued by the War Department to The Washington Herald.)

Editor's Note.—This course of thirty daily lessons is offered to the men selected for service in the National Army as a practical help in getting started in the right way. It is informal in tone and does not attempt ting started in the right way. It is informal in tone and does not attempt to give binding rules and directions. These are contained in the various manuals and regulations of the United States Army, for which this Course is merely introductory. The leasons will appear deily in The Herald.

LESSON NO. 6—CLEANLINESS IN CAMP.

(Preceding Lessons: 1. Your Post, times you cannot obtain a bath, give yourself a good stiff rub with a dry town of Honor. 2. Making Good as a Soldier. 3. Nine Qualities of a Soldier. 4. Getting Ready for Camp. 5. First Days in Camp.)

When large numbers of men are assembled in camp it is necessary your shirts, drawers and socks should be washed and fresh underclothes put on. In case it is necessary for the good of all that strict rules of personal conduct and sanitation should be enforced. These rules, are a protection. By insisting on strict obedience to these rules, the diseases which once took so heavy a toll in nearly all military camps have been brought under control; some have been practically eliminated.

One of the pests of camp life, if perfect cleanlines, is not observed, is the présence of swarms of files. Files are not merely annoyling. They are dangerous. Somebody has said, with perhaps a slight exaggeration, that to soldiers they are more dangerous than to soldiers they are more dangerous that to soldiers they are more dangerous than to soldiers they are more dangerous than to soldiers and soldiers are not merely annoyling. They are dangerous. Somebody has said, with perhaps a slight exaggeration, that to soldiers they are more dangerous than to s

eliminated.

One of the pests of camp life, if perfect cleanlines, is not observed, is the presence of swarms of flies. Flies are not merely annoying. They are dangerous. Somebody has said, with perhaps a slight exaggeration, that to soldiers they are more dangerous than bullets. This is because files carry disease germs. They feed on manure, are the second of the 13.25a15.75.
CATTLE.—Receipts, 9,000; weak. Native beef cattle, 8,15a14.80; Western steers, 7,05a12.45; stockers and feeders, 6,10a9.25; cows and helfers, 4,25a12.50; calves, 10.55a15.00.
SHEEP-Receipts, 5,000; weak. Wethers, 7,75 a11.10; lambs, 10.25a16.50.

Heavies and heavy yorkers, 19,00a12.25; light yorkers, 17,05a17.50; pigs, 15,55a 16,59. garbage, uncovered food, human ex-creta and the like. They also lay their eggs wherever refuse of the same kind is found. The best way to keep flies away from camps is to destroy the places where they breed and feed; in other words, keep the camp spotlessly

Sonp and Sunshine

Arrived on Own Yachts For this reason the daily "policing" (or cleaning up) of the camp is a mat-ter of first importance. The best safe-The Hague, Aug. 18.—The Hamburger Frewdenblatt, commenting on the arrival of the American troops in France, publishes a report from Berne which says:

"As for the Americans, the enthusiasm with which they were received from the heripage is and received from the heripage is mader. guards against disease, either in the

in France, publishes a report from Berne which says:

"As for the Americans, the enthusiasm with which they were received from the beginning is understandable. It is an extraordinary crowd, and one can see that they are descended from immigrants.

"A number of the officers are millionaires' sons, who arrived on their own yachts."

HUSBAND SEEKS DIVORCE.
Suit for absolute divorce was filed colds and infectious fevers are often passed from one person to others by using articles in common.

Suit for absolute divorce was filed resterday in the District Supreme Court by Morris V. Avery against Florence L. Avery. The couple were In the training camps there will be Florence L. Avery. The couple were married July 4, 1907, and have two lentidren. The husband charges mis-conduct and names a co-respondent.

blinds; inside no finish; roofing crushed slate, furnished in rolls. Weight, about 13,000 pounds. Price, five hundred and seventy-five (575) dollars, f. o. b. Brooklyn.

POCONO HILLS MODEL BUNGALOW.

MANY DIFFICULTIES stand in the way of the average family wishing to establish its own "owned" home. As a usual rule, you build but once in a lifetime.

It is the most considerable and critical of all operations of a material nature that have to be thought out and worked out. The result is that you pay more for your home than it is really worth, because you do not know the building business. The Bossert Method solves this problem for the average man. We build houses along your own plans, or suggest standard plans that make the selection of a home simple, economical and obviates the necessity of having to wait for materials being held up on account of strikes or shortage of labor. As a possible home owner you should learn more of the Bossert idea. Write today for our catalogue.

Bossert Houses

ECONOMICAL—DURABLE—COMFORTABLE

Our system of centralizing all the cutting, fitting and finishing of each section at the fac-tory saves you many a dollar and makes it possible to have your house months in advance of the usual way of building "piece-meal" on the spot.

Bossert Houses are ready-constructed. You put them up in sections, all conveniently planned and made ready for you in our 32-acre plant.

A Bossert House, first of all, has individuality, not that factory look which says, "I'm but one of thousands just like me." A Bossert House reflects your own ideas and personality. We have standardized, not the house, but the method of construction.

Orders filled in order received. To insure prompt delivery order at once. Send 12 cents for complete catalogue showing Bossert details of construction.
